

# VOLUME 80 • SUBJECT INDEX

- Aborigines**, Rheumatic chorea in northern Australia: a clinical and epidemiological study, 353
- accident and emergency**, Injury surveillance in an accident and emergency department: a year in the life of CHIRPP, 533
- accidental injury**, The prevalence and distribution of bruising in babies, 363
- accidents**, Post-traumatic stress disorder: *annotation*, 107
- Acheson report**, The Acheson report: challenges for the College: *personal view*, 576
- acoustic analysis**, What is distinct about infants' "colic" cries?, 56
- acute asthma**, A randomised controlled trial to assess the relative benefits of large volume spacers and nebulisers to treat acute asthma in hospital, 421
- acute cerebellar ataxia**, Acute cerebellar ataxia with human parvovirus B19 infection, 72
- acute gastroenteritis**, Guidelines for managing acute gastroenteritis: *letter*, 580
- acute lymphoblastic leukaemia**, Height and weight pattern in very long term survivors of childhood acute lymphoblastic leukaemia: *letter*, 300
- acute lymphocytic leukaemia**, Survival after acute lymphocytic leukaemia: effects of socioeconomic status and geographic region, 311
- acute respiratory distress syndrome**, Surfactant treatment for acute respiratory distress syndrome, 248
- acute viral bronchiolitis**, Randomised controlled trial of budesonide for the prevention of post-bronchiolitis wheezing, 343
- adolescence**, Rapid onset transverse myelitis in adolescence: implications for pathogenesis and prognosis, 137
- adrenal insufficiency**, Adrenal insufficiency in septic shock, 51  
Tests of adrenal insufficiency, 330
- aerosol**, Randomised controlled study of early use of inhaled corticosteroid in preterm infants with respiratory distress syndrome, F203
- age**, Partial remission phase of diabetes in children younger than age 10 years, 367
- aldehyde**, Raised concentrations of aldehyde lipid peroxidation products in premature infants with chronic lung disease, F21
- allergy**, Definitive diagnosis of nut allergy, 175
- ambulatory blood pressure**, Ambulatory blood pressure in schoolchildren, 529
- amiloride**, Treatment of nephrogenic diabetes insipidus with hydrochlorothiazide and amiloride, 548
- anaemia**, Haemoglobin and ferritin concentrations in children aged 12 and 18 months, 153
- analgesia**, "Sucrose analgesia": absorptive mechanism or taste perception?, F146
- androgen insensitivity syndrome**, Assessment of the gonadotrophin-gonadal axis in androgen insensitivity syndrome, 324
- androgen secreting adrenocortical tumours**, Androgen secreting adrenocortical tumours, 46
- antenatal corticosteroid**, Trends in incidence of cranial ultrasound lesions and cerebral palsy in very low birthweight infants 1982-93, F115
- antenatal dexamethasone**, Effect of multiple courses of antenatal corticosteroids on pituitary-adrenal function in preterm infants, F213
- antenatal renal pelvis dilatation**, Prospective study of outcome in antenatally diagnosed renal pelvis dilatation, F135
- antenatal screening**, Influence of five years of antenatal screening on the paediatric cystic fibrosis population in one region: *letter*, 494
- anthropometry**, Anthropometry of patients with osteogenesis imperfecta, 524
- antibiotic resistance**, Outbreak of extended spectrum  $\beta$  lactamase producing *Klebsiella pneumoniae* in a neonatal unit, F64
- antibiotics**, Evidence for using nebulised antibiotics in cystic fibrosis: *annotation*, 307
- antimicrobial agents**, Antimicrobial prophylaxis: *current topic*, 388
- aplastic anaemia**, Improved prognosis for acquired aplastic anaemia, 158
- apnoea of prematurity**, Assessment of effect of nasal continuous positive pressure on laryngeal opening using fibre optic laryngoscopy, F230
- Archivist**, Conjugate pneumococcal vaccine, 90  
Ethology and cortical visual impairment, 323  
Intramuscular RSV antibody, 240  
Iodine, selenium, and joints: Kashin-Beck disease, 261  
Lorenzo's oil: the sequel, 342  
Mouldy homes and bleeding lungs, 55  
The fairy godmother effect, 174  
The writing on the wall, 170  
Xylitol and acute otitis media, 376
- arginine**, Insulin induced hypoglycaemia: comparison of glucose and glycerol concentrations in plasma and microdialysate from subcutaneous adipose tissue, 42
- Armand Trousseau**, Armand Trousseau (1801-67) and the treatment of rickets: *perinatal lesson*, F155
- arrhythmias**, Short QTc interval as an important factor in sudden infant death syndrome: *annotation*, 105
- aspiration**, Feeding problems in merosin deficient congenital muscular dystrophy, 542
- assessment**, Learning in preschool children with neurological disability: *current topic*, 481
- assessment unit**, Unscheduled return visits within 72 hours to an assessment unit, 455
- asthma**, Isolated cough: probably not asthma: *annotation*, 211  
Chronic cough: is it asthma?: *letter*, 582  
Difficult asthma: beyond the guidelines: *personal practice*, 201  
Effect of environmental tobacco smoke on peak flow variability, 253  
*Chlamydia pneumoniae* infection in children with persistent cough: *letter*, 581  
"Can I have a letter for the housing, doctor?": *letter*, 207  
Prospects for preventing asthma: *annotation*, 401  
Structured discharge procedure for children admitted to hospital with acute asthma: a randomised controlled trial of nursing practice, 110  
Validation of an asthma symptom diary for interventional studies, 414  
Who needs chest physiotherapy? Moving from anecdote to evidence: *personal view*, 393
- atopy**, Brief neonatal exposure to cows' milk and atopy: *letter*, 208  
Chronic cough: is it asthma?: *letter*, 582  
Prospects for preventing asthma: *annotation*, 401
- attentional ability**, Attentional ability among survivors of leukaemia, 318
- autonomic monitoring**, Recent insights into hyperventilation from the study of Rett syndrome: *current topic*, 384
- autosomal recessive trait**, Prenatal diagnosis in factor XIII-A deficiency, F238
- $\beta$  agonists**, A randomised controlled trial to assess the relative benefits of large volume spacers and nebulisers to treat acute asthma in hospital, 421
- $\beta$  lactamase producing *Klebsiella pneumoniae***, Outbreak of extended spectrum  $\beta$  lactamase producing *Klebsiella pneumoniae* in a neonatal unit, F64
- bacteraemia**, Recurrent infections in homozygous sickle cell disease, 537
- Barker hypothesis**, Early growth and cardiovascular disease: *annotation*, 305
- BCG**, BCG and tuberculosis: *current topic*, 80
- Beckwith-Wiedeman syndrome**, Cancer in Sotos syndrome: *letter*, 493
- behaviour**, Cognitive, educational, and behavioural outcomes at 7 to 8 years: *letter*, F78  
Neuropsychological sequelae of haemolytic uraemic syndrome, 214
- behaviour problems**, Behaviour and cognitive outcomes from middle ear disease, 28
- bilirubin**, Serum malondialdehyde concentration in babies with hyperbilirubinaemia, F235
- birthweight**, Systolic blood pressure in babies of less than 32 weeks gestation in the first year of life, F38
- blood gas monitoring**, Continuous neonatal blood gas monitoring using a multiparameter intra-arterial sensor, F93
- blood glucose**, Randomised controlled trial of effect of terbutaline before elective Caesarean section on postnatal respiration and glucose homeostasis, F88
- blood pressure variation**, Ambulatory blood pressure in schoolchildren, 529
- body composition**, Body composition in preterm infants during infancy, F188  
Metabolic effects of discontinuing growth hormone treatment, 517
- body constitution**, Anthropometry of patients with osteogenesis imperfecta, 524
- bone marrow transplantation**, Importance of neurological assessment before bone marrow transplantation for osteopetrosis, 273  
Improved prognosis for acquired aplastic anaemia, 158  
Ovarian function after bone marrow transplantation performed before menarche, 452
- bone mineral density**, Randomised controlled trial of vitamin D supplementation on bone density and biochemical indices in preterm infants, F161  
Reduced bone density at completion of chemotherapy for a malignancy, 143
- bone mineralisation**, Metabolic effects of discontinuing growth hormone treatment, 517

- bone resorption**, Urinary excretion of pyridinium crosslinks in healthy 4-10 year olds, **370**
- Bordetella pertussis**, Pertussis is increasing in unimmunised infants: is a change in policy needed?: *current topic*, **297**
- botulinum toxin**, Position paper on the use of botulinum toxin in cerebral palsy: *letter*, **301**
- bowel angina**, Henoch-Schönlein purpura: *rheumatology*, **380**
- bowel preparation**, Randomised trial of two pharmacological methods of bowel preparation for day case colonoscopy, **181**
- brain development**, Plausible explanations for effects of long chain polyunsaturated fatty acids (LCPUFA) on neonates: *review*, **F148**
- brain stem**, Recent insights into hyperventilation from the study of Rett syndrome: *current topic*, **384**
- brain stem glioma**, Clinical management of brain stem glioma: *current topic*, **558**
- breast milk**, Stool microflora in extremely low birthweight infants, **F167**
- breath test**, Development of fat digestion in infancy, **F183**
- bronchiolitis**, Randomised controlled trial of budesonide for the prevention of post-bronchiolitis wheezing, **343**
- bruising**, The prevalence and distribution of bruising in babies, **363**
- budesonide**, Randomised controlled trial of budesonide for the prevention of post-bronchiolitis wheezing, **343**
- burns**, Tympanic membrane temperature as a measure of core temperature, **262**
- C reactive protein**, Insulin-like growth factor I response during nutritional rehabilitation of persistent diarrhoea, **438**
- caesarian section**, Randomised controlled trial of effect of terbutaline before elective Caesarean section on postnatal respiration and glucose homeostasis, **F88**
- Robert Felkin MD (1853-1926) and Caesarean delivery in Central Africa (1879): *perinatal lesson*, **F250**
- caffeine**, Effect of caffeine on neonatal splanchnic blood flow, **F128**
- Is caffeine treatment given to preterm babies a risk factor for SIDS?: *letter*, **F159**
- calcaneum**, Ultrasound study of heel to calcaneum depth in neonates, **F243**
- Calman reforms**, Effects of the Calman reforms: a two year review: *current topic*, **84**
- The effect of Calman reforms on recruitment training and service provision: *personal view*, **485**
- The effects of the Calman reforms on training, service provision, and recruitment: *current topic*, **88**
- cancer**, Genes and cancer: *annotation*, **1**
- Late diagnosis of retinoblastoma in a developing country, **171**
- Once daily ceftriaxone and gentamicin for the treatment of febrile neutropenia, **125**
- capillary refill**, Capillary refill and core-peripheral temperature gap as indicators of haemodynamic status in paediatric intensive care patients, **163**
- cardiac murmur**, Examination for cardiac malformations at six weeks of age, **F46**
- Presentation of congenital heart disease in infancy: implications for routine examination, **F49**
- Prevalence and clinical significance of cardiac murmurs in neonates, **F43**
- cardiac output**, Capillary refill and core-peripheral temperature gap as indicators of haemodynamic status in paediatric intensive care patients, **163**
- cardiac surgery**, Controlled study of preschool development after surgery for congenital heart disease, **511**
- cardiovascular disease**, Early growth and cardiovascular disease: *annotation*, **305**
- carnitine**, Outcome of medium chain acyl-CoA dehydrogenase deficiency after diagnosis, **459**
- catecholamines**, Insulin induced hypoglycaemia: comparison of glucose and glycerol concentrations in plasma and microdialysate from subcutaneous adipose tissue, **42**
- cause of death**, Cumulative mortality in children aged 1 to 6 years born in Western Australia from 1980-89, **15**
- ceftriaxone**, Once daily ceftriaxone and gentamicin for the treatment of febrile neutropenia, **125**
- cerebral blood flow**, Cerebral blood flow during treatment for pulmonary hypertension, **F30**
- Cerebral blood flow velocity during neonatal seizures, **F105**
- cerebral haemorrhage**, Trends in incidence of cranial ultrasound lesions and cerebral palsy in very low birthweight infants 1982-93, **F115**
- cerebral palsy**, Epidemiology of cerebral palsy: *letter*, **F158**
- Maternal hypertension and its association with cerebral palsy in very preterm infants: *letter*, **F158**
- Position paper on the use of botulinum toxin in cerebral palsy: *letter*, **301**
- Trends in incidence of cranial ultrasound lesions and cerebral palsy in very low birthweight infants 1982-93, **F115**
- CHARGE**, Growth failure and pituitary function in CHARGE and VATER associations, **167**
- chemoprophylaxis**, Pertussis is increasing in unimmunised infants: is a change in policy needed?: *current topic*, **297**
- chemotherapy**, Height and weight pattern in very long term survivors of childhood acute lymphoblastic leukaemia: *letter*, **300**
- chest physiotherapy**, Who needs chest physiotherapy? Moving from anecdote to evidence: *personal view*, **393**
- child abuse**, Mothering to death, **359**
- The prevalence and distribution of bruising in babies, **363**
- Unnatural sudden infant death, **7**
- Chinese motor paralysis**, Chinese motor paralysis: *letter*, **101**
- Chlamydia pneumoniae**, *Chlamydia pneumoniae* infection in children with persistent cough: *letter*, **581**
- cholestatic jaundice**, An inborn error of bile acid synthesis (3 $\beta$ -hydroxy- $\Delta^4$ -C<sub>27</sub>-steroid dehydrogenase deficiency) presenting as malabsorption leading to rickets, **463**
- chorea**, Rheumatic chorea in northern Australia: a clinical and epidemiological study, **353**
- chronic cough**, Chronic cough: is it asthma?: *letter*, **582**
- chronic illness**, Compliance with treatment protocols: interventions for children with chronic illness: *current topic*, **196**
- chronic lung disease**, Antibody response to accelerated Hib immunisation in preterm infants receiving dexamethasone for chronic lung disease, **F69**
- cisapride**, Randomised controlled trial of cisapride in preterm infants, **F174**
- Risks and benefits of cisapride: *letter*, **582**
- Role of cisapride in preterm infants: *letter*, **F253**
- The risks and benefits of cisapride: *letter*, **493**
- clinical outcomes**, Clinical outcomes of newborn screening for cystic fibrosis, **F1**
- clinical trials**, Prospects for gene therapy in cystic fibrosis: *current topic*, **286**
- cognitive development**, Behaviour and cognitive outcomes from middle ear disease, **28**
- cognitive function**, Cognitive, educational, and behavioural outcomes at 7 to 8 years: *letter*, **F78**
- Neuropsychological sequelae of haemolytic uraemic syndrome, **214**
- Colic, What is distinct about infants' "colic" cries?, **56**
- collagen**, Anthropometry of patients with osteogenesis imperfecta, **524**
- colonoscopy**, Randomised trial of two pharmacological methods of bowel preparation for day case colonoscopy, **181**
- communication**, Improving communication between doctors and patients: *letter*, **399**
- community practice**, A search for the evidence supporting community paediatric practice, **257**
- compliance**, Compliance with treatment protocols: interventions for children with chronic illness: *current topic*, **196**
- congenital heart disease**, Controlled study of preschool development after surgery for congenital heart disease, **511**
- Examination for cardiac malformations at six weeks of age, **F46**
- Presentation of congenital heart disease in infancy: implications for routine examination, **F49**
- Prevalence and clinical significance of cardiac murmurs in neonates, **F43**
- Telemedicine in paediatric cardiology: *annotation*, **497**
- congenital infection**, Mortality from early onset group B streptococcal infection in the United Kingdom, **F139**
- congenital muscular dystrophy**, Feeding problems in merosin deficient congenital muscular dystrophy, **542**
- congenital nephrotic syndrome**, Improved prognosis for congenital nephrotic syndrome of the Finnish type in Irish families, **466**
- controlled trial**, A controlled trial of parent initiated and conventional preschool health surveillance using personal child health records, **507**
- cortical atrophy**, Alpha-coma in an infant with hypoxic-ischaemic encephalopathy: *letter*, **F79**
- corticosteroids**, Randomised controlled study of early use of inhaled corticosteroid in preterm infants with respiratory distress syndrome, **F203**
- Systemic availability and pharmacokinetics of nebulised budesonide in preschool children, **241**
- cortisol**, Adrenal insufficiency in septic shock, **51**
- cost effectiveness**, A randomised controlled trial to assess the relative benefits of large volume spacers and nebulisers to treat acute asthma in hospital, **421**
- cotinine**, Effects of smoking in pregnancy on neonatal lung function, **F8**
- cough**, Isolated cough: probably not asthma: *annotation*, **211**
- Chlamydia pneumoniae* infection in children with persistent cough: *letter*, **581**
- counselling**, Post-traumatic stress disorder: *annotation*, **107**
- cows' milk**, Brief neonatal exposure to cows' milk and atopy: *letter*, **208**
- Guidelines for managing acute gastroenteritis: *letter*, **580**
- cranial ultrasound**, Trends in incidence of cranial ultrasound lesions and cerebral palsy in very low birthweight infants 1982-93, **F115**
- C reactive protein**, Diagnostic tests for bacterial infections: *letter*, **F78**
- CRIB**, Survival and place of delivery following preterm birth: 1994-96, **F111**
- critical care**, Cardiovascular effects of mechanical ventilation: *current topic*, **475**
- cross cultural ethical issues**, Withdrawal and limitation of life support in paediatric intensive care, **424**

- crying**, What is distinct about infants' "colic" cries?, 56
- cystic fibrosis**, Acute bronchopulmonary infection due to *Streptococcus milleri* in a child with cystic fibrosis, 278
- Blood concentrations of pancreatitis associated protein in neonates: relevance to neonatal screening for cystic fibrosis, **F118**
- Clinical outcomes of newborn screening for cystic fibrosis, **F1**
- Efficacy, tolerance, and pharmacokinetics of once daily tobramycin for pseudomonas exacerbations in cystic fibrosis: *letter*, 207
- Evidence for using nebulised antibiotics in cystic fibrosis: *annotation*, 307
- Gastric emptying and intestinal transit of pancreatic enzyme supplements in cystic fibrosis, 149
- Improvement of nebulised antibiotic delivery in cystic fibrosis, 348
- Influence of five years of antenatal screening on the paediatric cystic fibrosis population in one region: *letter*, 494
- Prospects for gene therapy in cystic fibrosis: *current topic*, 286
- Who needs chest physiotherapy? Moving from anecdote to evidence: *personal view*, 393
- cytomegalovirus**, Cytomegalovirus DNA detection on Guthrie cards in patients with neonatal cholestasis, **F130**
- Viral loads in dual infection with HIV-1 and cytomegalovirus, 132
- D-penicillamine**, International replications, anyone?: *letter*, **F253**
- Doppler echocardiography**, Left ventricular diastolic function in congenital myotonic dystrophy, 267
- decortication**, Empyema thoracis: a role for open thoracotomy and decortication: *letter*, 581
- dehydration**, Serum bicarbonate and the severity of dehydration in gastroenteritis: *letter*, 493
- dehydration**, Guidelines for managing acute gastroenteritis: *letter*, 580
- Delphi study**, Delphi study into planning for care of children in major incidents, 406
- Planning for major incidents involving children by implementing a Delphi study, 410
- deoxypyridinoline**, Urinary excretion of pyridinium crosslinks in healthy 4-10 year olds, 370
- depression**, Post-traumatic stress disorder: *annotation*, 107
- 1-desamino-8-D-arginine vasopressin**, Plasma vasopressin and response to treatment in primary nocturnal enuresis, 448
- developing world**, Childhood tuberculosis in an urban population in South Africa: burden and risk factor, 433
- Late diagnosis of retinoblastoma in a developing country, 171
- Teaching paediatrics for the developing world: *letter*, 100
- development**, Controlled study of preschool development after surgery for congenital heart disease, 511
- dexamethasone**, Antibody response to accelerated Hib immunisation in preterm infants receiving dexamethasone for chronic lung disease, **F69**
- Neurological adverse effects of early postnatal dexamethasone in very preterm infants: *letter*, **F159**
- Which course of dexamethasone?: *letter*, **F80**
- diabetes**, Early growth and cardiovascular disease: *annotation*, 305
- Hypoglycaemia in neonates: *letter*, **F252**
- Neonatal hypoglycaemia after diabetic pregnancy: *letter*, **F252**
- Partial remission phase of diabetes in children younger than age 10 years, 367
- diagnostic tests**, Diagnostic tests for bacterial infections: *letter*, **F78**
- diagnosis**, Clinical management of brain stem glioma: *current topic*, 558
- Late diagnosis of retinoblastoma in a developing country, 171
- diarrhoea**, Is prolonged rotavirus infection a common cause of protracted diarrhoea?: *annotation*, 309
- Insulin-like growth factor I response during nutritional rehabilitation of persistent diarrhoea, 438
- Less diarrhoea but no change in growth: 15 years' data from three Gambian villages, 115
- diastolic filling**, Left ventricular diastolic function in congenital myotonic dystrophy, 267
- digestion**, Development of fat digestion in infancy, **F183**
- disability**, Can routine information systems be used to monitor serious disability?, 63
- Four key questions that identify severe disability, 67
- Learning in preschool children with neurological disability: *current topic*, 481
- district general hospitals**, Where should paediatric surgery be performed?: *letter*, 300
- diuretic resistant oedema**, Mannitol and frusemide in the treatment of diuretic resistant oedema in nephrotic syndrome, 184
- Doppler ultrasonography**, Causes and consequences of fetal acidosis: *current topic*, **F246**
- Down's syndrome**, Growth hormone treatment in young children with Down's syndrome: effects on growth and psychomotor development, 334
- drug delivery systems**, Evidence for using nebulised antibiotics in cystic fibrosis: *annotation*, 307
- drug doses**, Errors by paediatric residents in calculating drug dosages: *letter*, 101
- drug regimens**, Management of tuberculosis in Wales: 1986-92: *letter*, 579
- dual emission energy x-ray absorptiometry**, Body composition in preterm infants during infancy, **F188**
- ductal diameter**, Prostacyclin concentrations and transitional circulation in preterm infants requiring mechanical ventilation, **F34**
- E selectin**, Endothelial cell adhesion molecules in meningococcal disease, 74
- early diagnosis**, Clinical outcomes of newborn screening for cystic fibrosis, **F1**
- early infancy**, Systolic blood pressure in babies of less than 32 weeks gestation in the first year of life, **F38**
- echocardiography**, Echocardiography by a neonatologist: *letter*, 580
- Haemodynamic effects of altering arterial oxygen saturation in preterm infants with respiratory failure, **F81**
- Telemedicine in paediatric cardiology: *annotation*, 497
- eclampsia**, Does endothelin-1 reduce superior mesenteric artery blood flow velocity in preterm neonates?, **F123**
- ecological validity**, Evidence based medicine and evaluation of mental health services: methodological issues and future directions: *current topic*, 280
- education**, Cognitive, educational, and behavioural outcomes at 7 to 8 years: *letter*, **F78**
- Current means of obtaining a PhD in the UK: *letter*, 102
- How to organise a paediatric MRCP (UK) part II training course, 570
- Teaching paediatrics for the developing world: *letter*, 100
- EEG**, Cerebral blood flow velocity during neonatal seizures, **F105**
- elective high frequency ventilation**, Meta-analysis of elective high frequency ventilation in preterm infants with respiratory distress syndrome, **F15**
- electrocardiography**, Prolonged QT interval in Rett syndrome, 470
- electroencephalogram**, Significance of the EEG after the first afebrile seizure: *letter*, 100
- emergency admission**, Perception of need for emergency admission to hospital: *letter*, 398
- Perception of need for emergency admission to hospital: *letter*, 398
- emergency medicine**, Delphi study into planning for care of children in major incidents, 406
- empyema thoracis**, Empyema thoracis: a role for open thoracotomy and decortication: *letter*, 581
- encephalitis**, Long term neurological outcome of herpes encephalitis, 69
- endothelin-1**, Does endothelin-1 reduce superior mesenteric artery blood flow velocity in preterm neonates?, **F123**
- England and Wales**, Survival after acute lymphocytic leukaemia: effects of socioeconomic status and geographic region, 311
- enteric bacterial colonisation**, Stool microflora in extremely low birthweight infants, **F167**
- epidemiology**, Cumulative mortality in children aged 1 to 6 years born in Western Australia from 1980-89, 15
- Permanent neonatal diabetes mellitus: clinical presentation and epidemiology in Oman, **F209**
- Prospects for preventing asthma: *annotation*, 401
- epilepsy**, Characteristics of the initial seizure in familial febrile seizures, 178
- Significance of the EEG after the first afebrile seizure: *letter*, 100
- erythema infectiosum**, Acute cerebellar ataxia with human parvovirus B19 infection, 72
- erythroid cell contamination**, Correction for erythroid cell contamination in microassay for immunophenotyping of neonatal lymphocytes, **F226**
- evaluation**, Evaluation of a national surveillance unit, 21
- evidence based practice**, Antimicrobial prophylaxis: *current topic*, 388
- A search for the evidence supporting community paediatric practice, 257
- Distinguishing between "no evidence of effect" and "evidence of no effect" in randomised controlled trials and other comparisons: *annotation*, 210
- Evidence based medicine and evaluation of mental health services: methodological issues and future directions: *current topic*, 280
- Evidence for using nebulised antibiotics in cystic fibrosis: *annotation*, 307
- Guidelines for managing acute gastroenteritis: *letter*, 580
- Who needs chest physiotherapy? Moving from anecdote to evidence: *personal view*, 393
- eyesight**, Plausible explanations for effects of long chain polyunsaturated fatty acids (LCPUFA) on neonates: *review*, **F148**
- factor XIII-A deficiency**, Prenatal diagnosis in factor XIII-A deficiency, **F238**
- failure to thrive**, A randomised controlled trial of specialist health visitor intervention for failure to thrive: *commentary*, 500
- Adequacy of standards for assessment of growth and nutritional status in infancy and early childhood, 121
- familial cancer**, Genes and cancer: *annotation*, 1
- Fanconi's anaemia**, Oesophageal atresia, VACTERL association: Fanconi's anaemia related spectrum of anomalies: *letter*, 207
- fat soluble vitamins**, An inborn error of bile acid synthesis (3 $\beta$ -hydroxy- $\Delta^2$ -C<sub>26</sub>-steroid dehydrogenase deficiency) presenting as malabsorption leading to rickets, 463
- febrile neutropenia**, Once daily ceftriaxone and gentamicin for the treatment of febrile neutropenia, 125

- febrile seizures**, Characteristics of the initial seizure in familial febrile seizures, 178
- feeding difficulties**, Feeding problems in merosin deficient congenital muscular dystrophy, 542
- ferritin**, Haemoglobin and ferritin concentrations in children aged 12 and 18 months, 153
- fetal acidosis**, Causes and consequences of fetal acidosis: *current topic*, F246
- fibrocartilaginous emboli**, Rapid onset transverse myelitis in adolescence: implications for pathogenesis and prognosis, 137
- final height**, Final height in girls with Turner's syndrome treated with once or twice daily growth hormone injections, 36
- fluticasone propionate**, Randomised controlled study of early use of inhaled corticosteroid in preterm infants with respiratory distress syndrome, F203
- focusing difficulties**, Attentional ability among survivors of leukaemia, 318
- food**, Pesticides in dietary foods for infants and young children. Report of the Working Group on Pesticides in Baby Foods of the European Society for Paediatric Gastroenterology, Hepatology and Nutrition (ESPGHAN), 91
- frusemide**, Mannitol and frusemide in the treatment of diuretic resistant oedema in nephrotic syndrome, 184
- galactosaemia**, Recommendations for the management of galactosaemia, 93
- gas chromatography and mass spectrometry**, Raised concentrations of aldehyde lipid peroxidation products in premature infants with chronic lung disease, F21
- gastric emptying**, Randomised controlled trial of cisapride in preterm infants, F174
- Randomised controlled trial of trophic feeding and gut motility, F54
- gastroenteritis**, Is prolonged rotavirus infection a common cause of protracted diarrhoea?: *annotation*, 309
- Serum bicarbonate and the severity of dehydration in gastroenteritis: *letter*, 493
- gastroenterology**, Risks and benefits of cisapride: *letter*, 582
- gastrointestinal motility**, Randomised controlled trial of cisapride in preterm infants, F174
- gastrointestinal transit**, Randomised controlled trial of cisapride in preterm infants, F174
- gastro-oesophageal reflux**, The risks and benefits of cisapride: *letter*, 493
- GB virus C**, GB virus C/hepatitis G virus infection in HIV infected patients with haemophilia despite treatment with virus inactivated clotting factor concentrates, 429
- galactosaemia**, Generalised uridine diphosphate galactose-4-epimerase deficiency, 374
- gene therapy**, Prospects for gene therapy in cystic fibrosis: *current topic*, 286
- generalised neurodegeneration**, Importance of neurological assessment before bone marrow transplantation for osteopetrosis, 273
- genetic predisposition**, Genes and cancer: *annotation*, 1
- genetics**, Characteristics of the initial seizure in familial febrile seizures, 178
- Long term outcome in children of sex chromosome abnormalities: *current topic*, 192
- gentamicin**, Once daily ceftriaxone and gentamicin for the treatment of febrile neutropenia, 125
- gestation**, Systolic blood pressure in babies of less than 32 weeks gestation in the first year of life, F38
- glucose**, Insulin induced hypoglycaemia: comparison of glucose and glycerol concentrations in plasma and microdialysate from subcutaneous adipose tissue, 42
- glutaric aciduria type 1**, Glutaric aciduria and suspected child abuse: *annotation*, 404
- glycerol**, Insulin induced hypoglycaemia: comparison of glucose and glycerol concentrations in plasma and microdialysate from subcutaneous adipose tissue, 42
- glycosaminoglycans**, Urinary glycosaminoglycan excretion in urolithiasis, 271
- gonadal failure**, Ovarian function after bone marrow transplantation performed before menarche, 452
- gonadotropin releasing hormone agonist**, Treatment of gonadotropin dependent precocious puberty due to hypothalamic hamartoma with gonadotropin releasing hormone agonist depot, 231
- gonadotropins**, Ovarian function after bone marrow transplantation performed before menarche, 452
- group B streptococcal infection**, Impaired phagocytosis and opsonisation towards group B streptococci in preterm infants: *letter*, F160
- Mortality from early onset group B streptococcal infection in the United Kingdom, F139
- growth**, Adequacy of standards for assessment of growth and nutritional status in infancy and early childhood, 121
- Cancer in Sotos syndrome: *letter*, 493
- Early growth and cardiovascular disease: *annotation*, 305
- Final height in girls with Turner's syndrome treated with once or twice daily growth hormone injections, 36
- Growth failure and pituitary function in CHARGE and VATER associations, 167
- Growth of long term survivors of liver transplantation, 235
- Height and weight pattern in very long term survivors of childhood acute lymphoblastic leukaemia: *letter*, 300
- Insulin-like growth factor I, IGF binding protein 3, and IGFBP protease activity: relation to anthropometric indices in solid tumours or leukaemia, 226

- liver transplantation**, Growth of long term survivors of liver transplantation, **235**
- long chain polyunsaturated fatty acids**, Plausible explanations for effects of long chain polyunsaturated fatty acids (LCPUFA) on neonates: *review*, **F148**
- long term outcome**, Long term outcome in children of sex chromosome abnormalities: *current topic*, **192**
- long term survivors**, Growth of long term survivors of liver transplantation, **235**
- long term treatment**, Treatment of nephrogenic diabetes insipidus with hydrochlorothiazide and amiloride, **548**
- longitudinal study**, Behaviour and cognitive outcomes from middle ear disease, **28**
- low risk delivery**, Relation between size of delivery unit and neonatal death in low risk deliveries: population based study, **F221**
- lumbar puncture**, Depth of insertion of a lumbar puncture needle: *letter*, **102**
- lung disease**, Surfactant treatment for acute respiratory distress syndrome, **248**
- lung function**, Effects of smoking in pregnancy on neonatal lung function, **F8**  
Randomised controlled trial of effect of terbutaline before elective Caesarean section on postnatal respiration and glucose homeostasis, **F88**
- lymphadenopathy**, Differential avian and human tuberculin skin testing in non-tuberculous mycobacterial infection, **377**
- lymphocyte subpopulations**, Correction for erythroid cell contamination in microassay for immunophenotyping of neonatal lymphocytes, **F226**
- maintaining cardiopulmonary function**, Cardiovascular effects of mechanical ventilation: *current topic*, **475**
- major incident**, Delphi study into planning for care of children in major incidents, **406**  
Planning for major incidents involving children by implementing a Delphi study, **410**
- malformation syndromes**, Genes and cancer: *annotation*, **1**
- malignancy**, Androgen secreting adrenocortical tumours, **46**  
Insulin-like growth factor I, IGF binding protein 3, and IGFBP protease activity: relation to anthropometric indices in solid tumours or leukaemia, **226**  
Reduced bone density at completion of chemotherapy for a malignancy, **143**
- malondialdehyde**, Serum malondialdehyde concentration in babies with hyperbilirubinaemia, **F235**
- management**, Clinical management of brain stem glioma: *current topic*, **558**

- mannitol**, Mannitol and frusemide in the treatment of diuretic resistant oedema in nephrotic syndrome, 184
- Mantoux**, Differential avian and human tuberculin skin testing in non-tuberculous mycobacterial infection, 377
- maple syrup urine disease**, Reduction of plasma concentrations of large neutral amino acids in patients with maple syrup urine disease during crises: *letter*, 579
- maternal hypertension**, Maternal hypertension and its association with cerebral palsy in very preterm infants: *letter*, F158
- maternal smoking**, Effects of smoking in pregnancy on neonatal lung function, F8
- maternity unit size**, Relation between size of delivery unit and neonatal death in low risk deliveries: population based study, F221
- measurement error**, Tympanic membrane temperature as a measure of core temperature, 262
- mechanical ventilation**, Cardiovascular effects of mechanical ventilation: *current topic*, 475  
Randomised controlled study of early use of inhaled corticosteroid in preterm infants with respiratory distress syndrome, F203
- medical student**, Can paediatric medical students devise a satisfactory standard of examination for their colleagues?, 573
- medium chain acyl-CoA dehydrogenase deficiency**, Outcome of medium chain acyl-CoA dehydrogenase deficiency after diagnosis, 459
- melanin**, Oculocutaneous albinism: *review*, 565
- meningococcal disease**, Emergency management of meningococcal disease: *personal practice*, 290  
Endothelial cell adhesion molecules in meningococcal disease, 74
- menstruation**, Ovarian function after bone marrow transplantation performed before menarche, 452
- mental development**, Growth hormone treatment in young children with Down's syndrome: effects on growth and psychomotor development, 334
- mercury poisoning**, Mercury intoxication presenting with hypertension and tachycardia, 556
- metabolic disorders**, Abuse or metabolic disorder?: *letter*, 100
- metabolism**, Hyperphagia in neonates withdrawing from methadone, F178  
Pharmacokinetics and metabolism of rectally administered paracetamol in preterm neonates, F59  
Plausible explanations for effects of long chain polyunsaturated fatty acids (LCPUFA) on neonates: *review*, F148  
Reduction of plasma concentrations of large neutral amino acids in patients with maple syrup urine disease during crises: *letter*, 579
- metered dose inhaler**, A randomised controlled trial to assess the relative benefits of large volume spacers and nebulisers to treat acute asthma in hospital, 421
- methadone withdrawal**, Hyperphagia in neonates withdrawing from methadone, F178
- microassay**, Correction for erythroid cell contamination in microassay for immunophenotyping of neonatal lymphocytes, F226
- microdialysis**, Insulin induced hypoglycaemia: comparison of glucose and glycerol concentrations in plasma and microdialysate from subcutaneous adipose tissue, 42
- middle ear disease**, Behaviour and cognitive outcomes from middle ear disease, 28
- mitochondrial DNA mutation**, Clinical and laboratory findings in referrals for mitochondrial DNA analysis: *letter*, 398
- molluscum contagiosum**, Interferon  $\alpha$  treatment of molluscum contagiosum in immunodeficiency, 77
- monochorionicity**, Fetal and infant death in mono- and dizygotic twins in England and Wales 1982-91, F217
- mortality**, Adrenal insufficiency in septic shock, 51  
Cumulative mortality in children aged 1 to 6 years born in Western Australia from 1980-89, 15
- mother to infant transmission**, Outcome of mother to infant acquired GBV-C/HGV infection, F72
- multiparameter intra-arterial sensor**, Continuous neonatal blood gas monitoring using a multiparameter intra-arterial sensor, F93
- multiple choice examination**, Can paediatric medical students devise a satisfactory standard of examination for their colleagues?, 573
- Munchausen syndrome by proxy**, Mothering to death, 359
- mutational analysis**, Hereditary pancreatitis and mutation of the trypsinogen gene, 473
- myocardial hypertrophy**, Which course of dexamethasone?: *letter*, F80
- myotonic dystrophy**, Left ventricular diastolic function in congenital myotonic dystrophy, 267
- nasal continuous positive airway pressure**, Assessment of effect of nasal continuous positive pressure on laryngeal opening using fibre optic laryngoscopy, F230
- nasopharyngeal tube**, Modified nasopharyngeal tube for upper airway obstruction, 186
- nebulised treatment**, A randomised controlled trial to assess the relative benefits of large volume spacers and nebulisers to treat acute asthma in hospital, 421  
Improvement of nebulised antibiotic delivery in cystic fibrosis, 348  
Systemic availability and pharmacokinetics of nebulised budesonide in preschool children, 241
- necrotising enterocolitis**, T and Tk antigen activation in necrotising enterocolitis: manifestations, severity of illness, and effectiveness of testing, F192
- neglect**, Mothering to death, 359
- neonatal cholestasis**, Cytomegalovirus DNA detection on Guthrie cards in patients with neonatal cholestasis, F130
- neonatal examination**, Prevalence and clinical significance of cardiac murmurs in neonates, F43
- neonatal intensive care**, Echocardiography by a neonatologist: *letter*, 580
- neonatal mortality**, Relation between size of delivery unit and neonatal death in low risk deliveries: population based study, F221
- neonatal screening**, Clinical outcomes of newborn screening for cystic fibrosis, F1
- neonates**, Risks and benefits of cisapride: *letter*, 582  
The risks and benefits of cisapride: *letter*, 493
- nephrogenic diabetes insipidus**, Treatment of nephrogenic diabetes insipidus with hydrochlorothiazide and amiloride, 548
- nephrotic syndrome**, Mannitol and frusemide in the treatment of diuretic resistant oedema in nephrotic syndrome, 184  
neurological development, Neurological adverse effects of early postnatal dexamethasone in very preterm infants: *letter*, F159
- neurological dysfunction**, Reduction of plasma concentrations of large neutral amino acids in patients with maple syrup urine disease during crises: *letter*, 579
- neurological outcome**, Visual function in term infants with hypoxic-ischaemic insults: correlation with neurodevelopment at 2 years of age, F99
- neutrophils**, Diagnostic tests for bacterial infections: *letter*, F78
- nitric oxide**, Cerebral blood flow during treatment for pulmonary hypertension, F30
- nocturnal enuresis**, Plasma vasopressin and response to treatment in primary nocturnal enuresis, 448
- non-accidental injury**, Glutaric aciduria and suspected child abuse: *annotation*, 404
- non-tuberculous mycobacteria**, Differential avian and human tuberculin skin testing in non-tuberculous mycobacterial infection, 377
- normoblasts**, Correction for erythroid cell contamination in microassay for immunophenotyping of neonatal lymphocytes, F226
- nuclear medicine**, Improvement of nebulised antibiotic delivery in cystic fibrosis, 348
- nurse-led discharge planning**, Structured discharge procedure for children admitted to hospital with acute asthma: a randomised controlled trial of nursing practice, 110
- nutrition**, Brief neonatal exposure to cows' milk and atopy: *letter*, 208  
Insulin-like growth factor I, IGF binding protein 3, and IGFBP protease activity: relation to anthropometric indices in solid tumours or leukaemia, 226  
Insulin-like growth factor I response during nutritional rehabilitation of persistent diarrhoea, 438  
Less diarrhoea but no change in growth: 15 years' data from three Gambian villages, 115
- nutritional assessment**, Adequacy of standards for assessment of growth and nutritional status in infancy and early childhood, 121
- nutritional status**, Adequacy of standards for assessment of growth and nutritional status in infancy and early childhood, 121
- nuts**, Definitive diagnosis of nut allergy, 175
- ocular albinism**, Oculocutaneous albinism: *review*, 565
- oculocutaneous albinism**, Oculocutaneous albinism: *review*, 565
- oesophageal atresia**, Oesophageal atresia, VACTERL association: Fanconi's anaemia related spectrum of anomalies: *letter*, 207
- Oman**, Permanent neonatal diabetes mellitus: clinical presentation and epidemiology in Oman, F209
- once daily treatment**, Once daily ceftriaxone and gentamicin for the treatment of febrile neutropenia, 125
- oncology**, Paediatric oncology and intensive care treatments: changing trends, 553
- oral rehydration**, Guidelines for managing acute gastroenteritis: *letter*, 580
- osmolality ratio**, Spot urine samples for evaluating solute excretion in the first week of life, F240
- osteogenesis imperfecta**, Anthropometry of patients with osteogenesis imperfecta, 524
- osteopenia**, Reduced bone density at completion of chemotherapy for a malignancy, 143
- osteopetrosis**, Importance of neurological assessment before bone marrow transplantation for osteopetrosis, 273
- outcomes**, Cognitive, educational, and behavioural outcomes at 7 to 8 years: *letter*, F78  
Four key questions that identify severe disability, 67  
Outcome of medium chain acyl-CoA dehydrogenase deficiency after diagnosis, 459
- outcomes research**, Validation of an asthma symptom diary for interventional studies, 414
- oxygen free radicals**, Serum malondialdehyde concentration in babies with hyperbilirubinaemia, F235

- oxygen saturation**, Haemodynamic effects of altering arterial oxygen saturation in preterm infants with respiratory failure, **F81**
- P selectin**, Endothelial cell adhesion molecules in meningococcal disease, **74**
- paediatric surveillance unit**, Evaluation of a national surveillance unit, **21**
- pain**, Pharmacokinetics and metabolism of rectally administered paracetamol in preterm neonates, **F59**  
Ultrasound study of heel to calcaneum depth in neonates, **F243**
- pancreatin**, Gastric emptying and intestinal transit of pancreatic enzyme supplements in cystic fibrosis, **149**
- pancreatitis**, Hereditary pancreatitis and mutation of the trypsinogen gene, **473**
- pancreatitis associated protein**, Blood concentrations of pancreatitis associated protein in neonates: relevance to neonatal screening for cystic fibrosis, **F118**
- panel of experts**, Delphi study into planning for care of children in major incidents, **406**
- paracetamol**, Pharmacokinetics and metabolism of rectally administered paracetamol in preterm neonates, **F59**
- parent initiated preschool surveillance**, A controlled trial of parent initiated and conventional preschool health surveillance using personal child health records, **507**
- parental views**, Perception of need for emergency admission to hospital: *letter*, **398**  
Perception of need for emergency admission to hospital: *letter*, **398**
- parenteral feeding**, Randomised controlled trial of trophic feeding and gut motility, **F54**
- particle size**, Improvement of nebulised antibiotic delivery in cystic fibrosis, **348**
- patent ductus arteriosus**, Haemodynamic effects of altering arterial oxygen saturation in preterm infants with respiratory failure, **F81**  
Prostacyclin concentrations and transitional circulation in preterm infants requiring mechanical ventilation, **F34**
- pathogenesis**, Rapid onset transverse myelitis in adolescence: implications for pathogenesis and prognosis, **137**

Growth in Sotos syndrome, 339
- specialist registrars**, Effects of the Calman reforms: a two year review: *current topic*, 84  
The effect of Calman reforms on recruitment training and service provision: *personal view*, 485  
The effects of the Calman reforms on training, service provision, and recruitment: *current topic*, 88
- splanchnic circulation**, Effect of caffeine on neonatal splanchnic blood flow, F128
- spot urine sample**, Spot urine samples for evaluating solute excretion in the first week of life, F240
- stable isotope**, Development of fat digestion in infancy, F183
- staff numbers**, UK neonatal intensive care services in 1996, F233
- standard setting**, Can paediatric medical students devise a satisfactory standard of examination for their colleagues?, 573
- statistics**, Distinguishing between "no evidence of effect" and "evidence of no effect" in randomised controlled trials and other comparisons: *annotation*, 210
- stillbirths**, Fetal and infant death in mono- and dizygotic twins in England and Wales 1982-91, F217
- stool**, Stool microflora in extremely low birthweight infants, F167
- Streptococcus milleri**, Acute bronchopulmonary infection due to *Streptococcus milleri* in a child with cystic fibrosis, 278
- Streptococcus pneumoniae**, Recurrent infections in homozygous sickle cell disease, 537
- streptokinase**, Intrapericardial streptokinase in purulent pericarditis, 275
- stroke volume**, Capillary refill and core-peripheral temperature gap as indicators of haemodynamic status in paediatric intensive care patients, 163
- subdural haematoma**, Glutaric aciduria and suspected child abuse: *annotation*, 404
- sucrose**, "Sucrose analgesia": absorptive mechanism or taste perception?: F146
- sudden infant death syndrome**, Is caffeine treatment given to preterm babies a risk factor for SIDS?: *letter*, F159  
Short QTc interval as an important factor in sudden infant death syndrome: *annotation*, 105  
Unnatural sudden infant death, 7
- surfactant**, Surfactant treatment for acute respiratory distress syndrome, 248
- surgery**, Where should paediatric surgery be performed?: *letter*, 300
- surveillance**, A controlled trial of parent initiated and conventional preschool health surveillance using personal child health records, 507  
Injury surveillance in an accident and emergency department: a year in the life of CHIRPP, 533
- survival**, Paediatric oncology and intensive care treatments: changing trends, 553  
Survival after acute lymphocytic leukaemia: effects of socioeconomic status and geographic region, 311  
Survival and place of delivery following preterm birth: 1994-96, F111
- symptom interval**, Late diagnosis of retinoblastoma in a developing country, 171
- Synacthen**, Tests of adrenal insufficiency, 330
- systematic review**, Systematic review of the school entry medical examination: *letter*, 101
- systemic availability**, Systemic availability and pharmacokinetics of nebulised budesonide in preschool children, 241
- systolic blood pressure**, Systolic blood pressure in babies of less than 32 weeks gestation in the first year of life, F38
- T antigen**, T and Tk antigen activation in necrotising enterocolitis: manifestations, severity of illness, and effectiveness of testing, F192
- tachycardia**, Mercury intoxication presenting with hypertension and tachycardia, 556
- teaching**, Teaching paediatrics for the developing world: *letter*, 100
- telemedicine**, Telemedicine in paediatric cardiology: *annotation*, 497
- temperature**, Tympanic membrane temperature as a measure of core temperature, 262
- terbutaline**, Randomised controlled trial of effect of terbutaline before elective Caesarean section on postnatal respiration and glucose homeostasis, F88
- tertiary centres**, Where should paediatric surgery be performed?: *letter*, 300
- thoracotomy**, Empyema thoracis: a role for open thoracotomy and decortication: *letter*, 581
- Tk antigen**, T and Tk antigen activation in necrotising enterocolitis: manifestations, severity of illness, and effectiveness of testing, F192
- tobacco smoke**, Effect of environmental tobacco smoke on peak flow variability, 253
- tobramycin**, Efficacy, tolerance, and pharmacokinetics of once daily tobramycin for pseudomonas exacerbations in cystic fibrosis: *letter*, 207
- tolazoline**, Cerebral blood flow during treatment for pulmonary hypertension, F30

- training**, Effects of the Calman reforms: a two year review: *current topic*, 84  
 The effect of Calman reforms on recruitment training and service provision: *personal view*, 485  
 The effects of the Calman reforms on training, service provision, and recruitment: *current topic*, 88
- transcranial Doppler**, Cerebral blood flow velocity during neonatal seizures, **F105**
- transferrin isoelectric focusing**, Generalised uridine diphosphate galactose-4-epimerase deficiency, 374
- transplantation**, Umbilical cord blood transplantation: *annotation*, 3
- transport**, A regionalised transport service, the way ahead?: *personal practice*, 488
- transverse myelitis**, Rapid onset transverse myelitis in adolescence: implications for pathogenesis and prognosis, 137
- treatment recommendations**, Management of tuberculosis in Wales: 1986-92: *letter*, 579
- triage**, A regionalised transport service, the way ahead?: *personal practice*, 488  
 Planning for major incidents involving children by implementing a Delphi study, 410
- trophic feeding**, Randomised controlled trial of trophic feeding and gut motility, **F54**
- trypsinogen gene**, Hereditary pancreatitis and mutation of the trypsinogen gene, 473
- tuberculosis**, BCG and tuberculosis: *current topic*, 80  
 Childhood tuberculosis in an urban population in South Africa: burden and risk factors, 433
- Turner's syndrome**, A decade of growth hormone treatment in girls with Turner syndrome in the UK, 221  
 Final height in girls with Turner's syndrome treated with once or twice daily growth hormone injections, 36
